

## **Southern Ohio Genealogical Society Research Request**

The request for Highland County ancestral research is done by volunteer SOGS members. It is very important that you provide us with as much accurate information about your ancestor to help cut down the amount of time our volunteers must spend.

Many of the Highland County Court House records have been copied and organized into our publications. Many genealogy libraries across the USA have some or all these publications. You can use the web site, [www.WorldCat.org](http://www.WorldCat.org) to find the closest library that has our publications. Our publications are listed on our website: [www.sogs.info](http://www.sogs.info)

We also recommend that you use the data bases available at your local library or from your home computer over the internet: [www.familysearch.org](http://www.familysearch.org) and [www. Ancestry.com](http://www.Ancestry.com) There are also links to genealogy research listed on our web site: [www.sogs.info](http://www.sogs.info) This form may be used to submit a request for one person or one married couple only.
